**Sarah Mae**

HEY, HI

*hello!*

## **I'm so happy you're here!**

My name is Sarah and I'm the photographer behind Photography of Sarah Mae.

My love for photography started when my 8 year old daughter was born. She was so beautiful and I just loved every inch of her and wanted to capture everything she did. So I went out and bought my first DSLR camera to learn how to do just that.

Fast forward 6 years and I began assisting a wedding photographer during her full-day photography sessions. It was thrilling, invigorating and helped me realize I wanted to do help capture these moments for others.

When I'm not photographing my clients or editing gorgeous images you can find me with my kids at a local splash pad, camping or prepping for an upcoming CECPTA event.

Can't wait to get to know you at your next session!

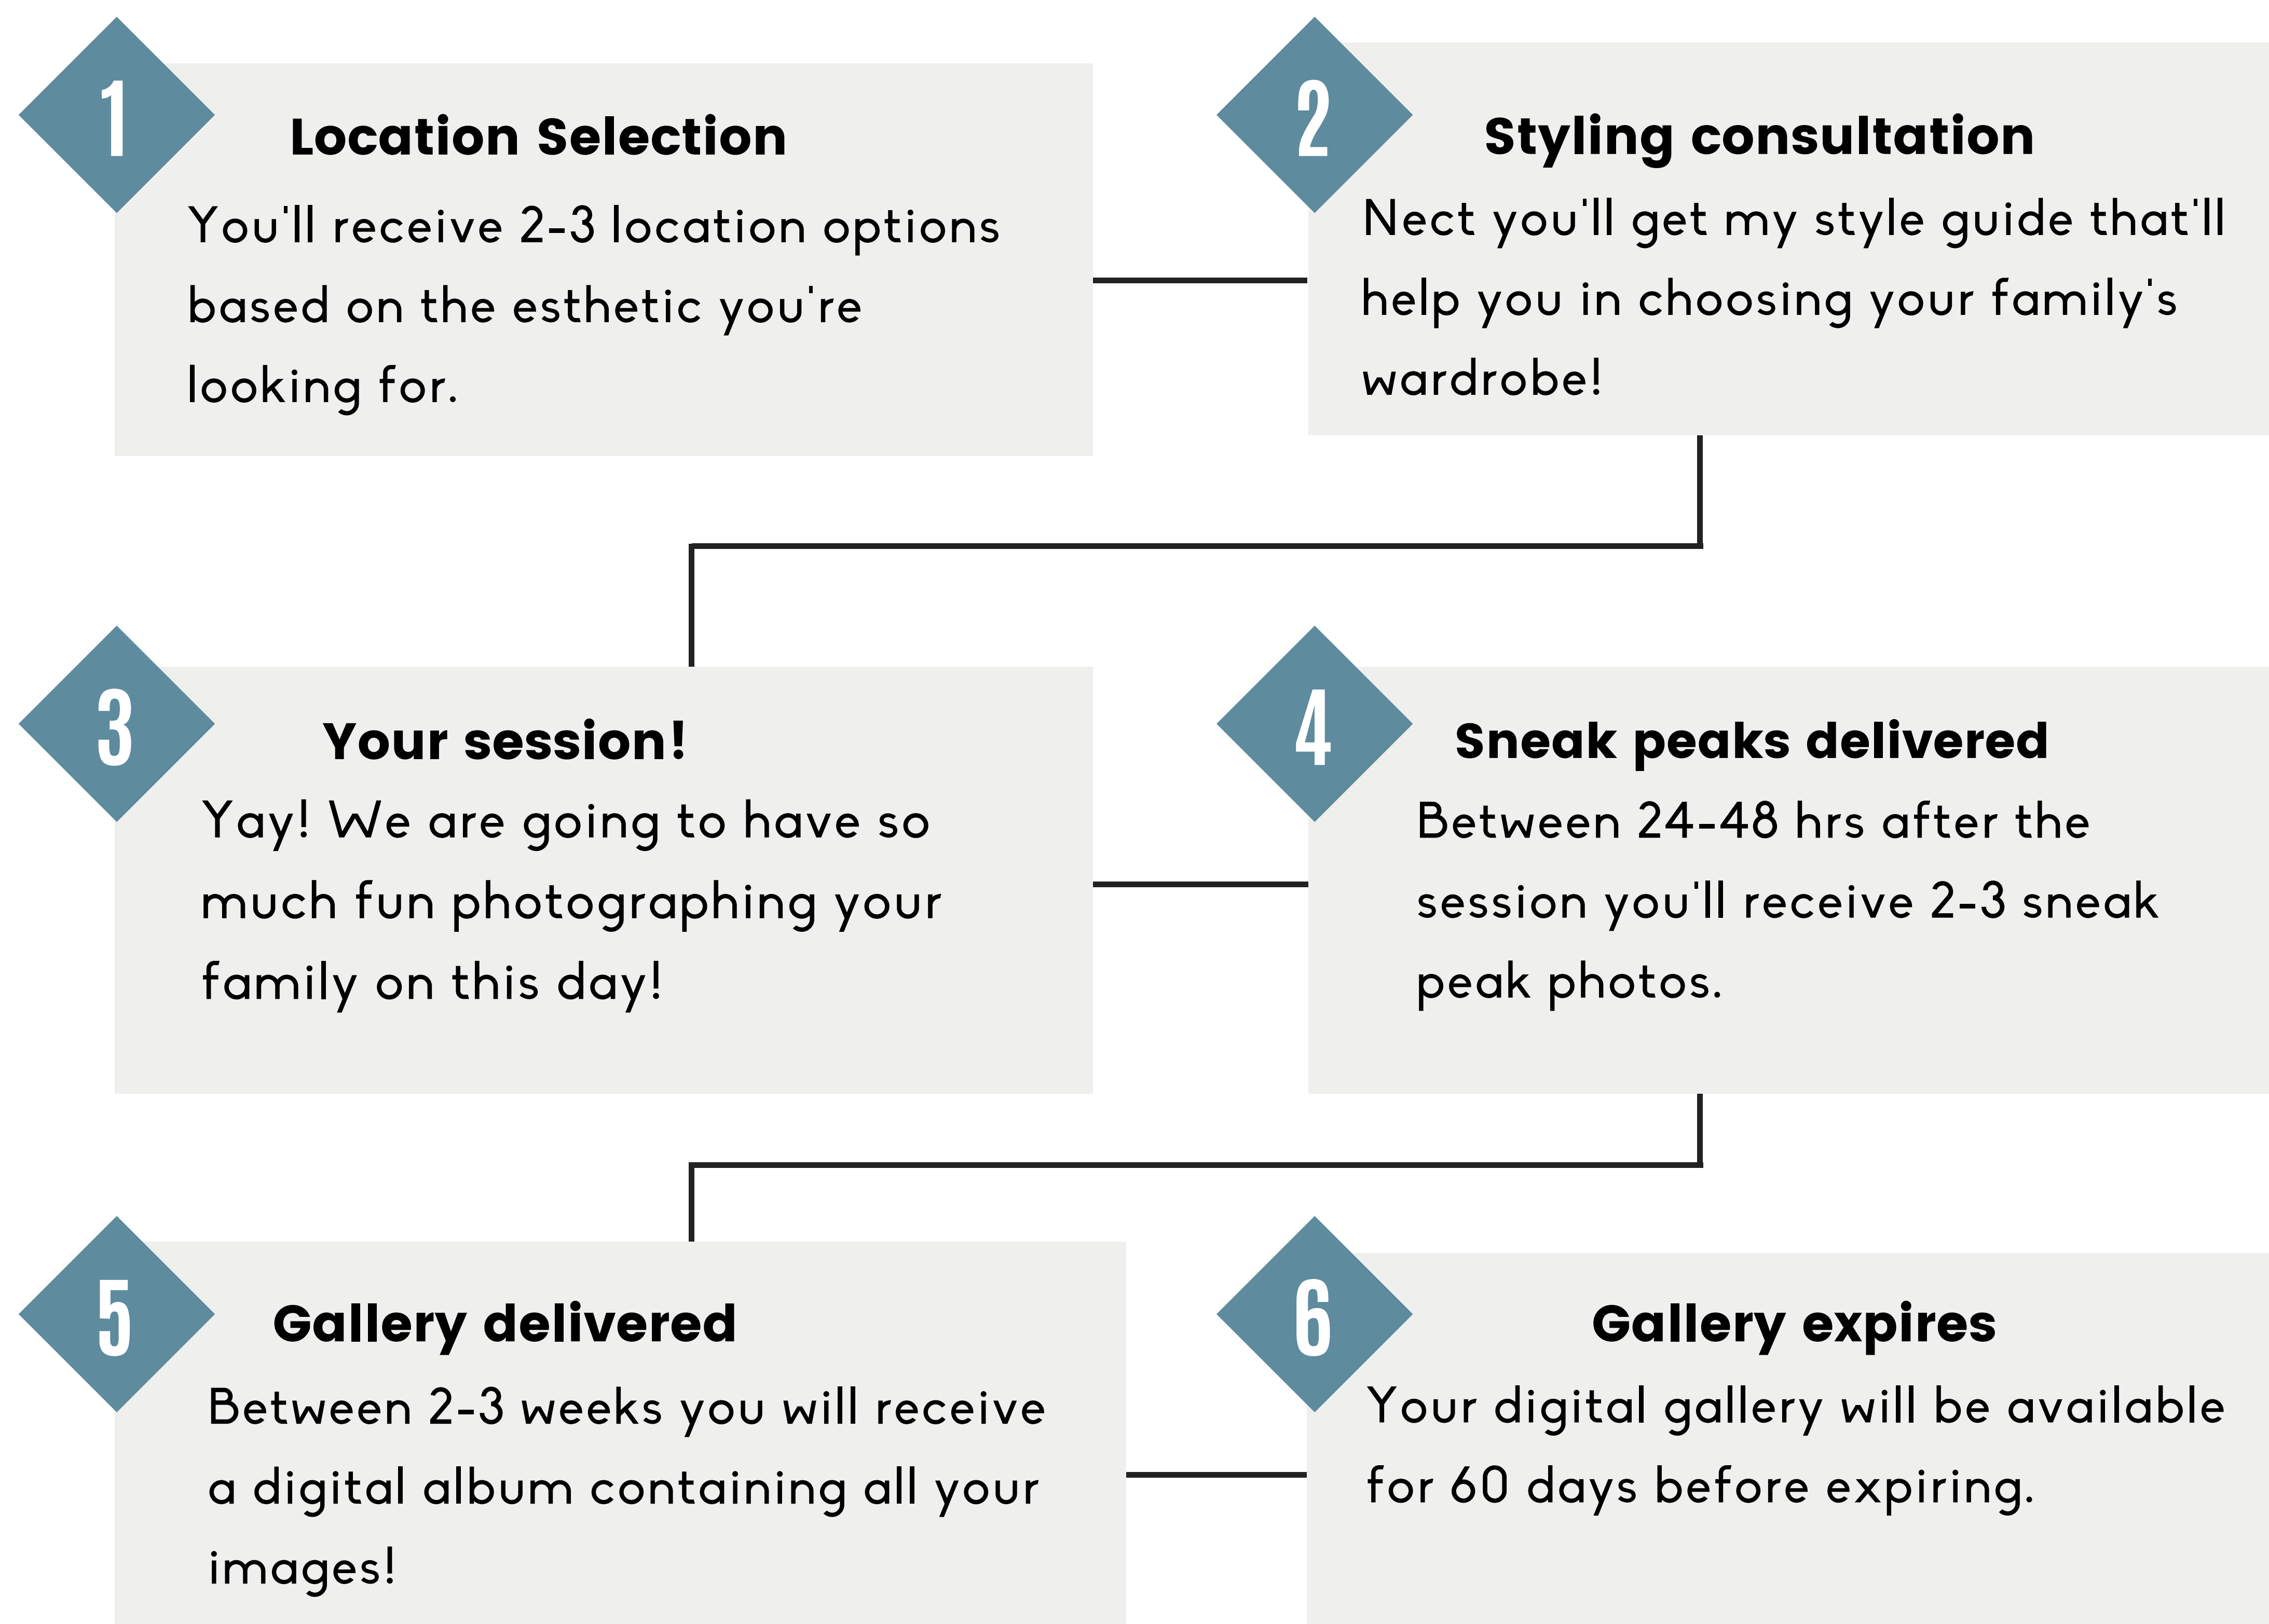

# the experience

My style of photogRaphy can be described as candid, expressive, and personable. I take an active approach to capturing your images, which means you will never be in one position too long plus I'll prepare you for each photo with light prompting and posing.

## Here's a little timeline of what happens after booking:

# CLIENT *love notes*

## **Bennett Family**

Sarah was excellent to work with. She is the kindest and sweetest person and she's talented to boot. She was and has been the most patient and flexible with everything from scheduling to emailing me reminders about my photos. Thank you so much for your beautiful work, Sarah!

## **Rodriguez Family**

Sarah is so personable, kind, and relatable. My extended family and I had such a great time working with her. She was prepared, had lots of ideas for shots and told us exactly how to pose. The photos came out very natural and wonderful depictions of us as a family. I can't wait to get them printed and on our walls! I would definitely recommend her to others!

## **Hodge Family**

Sarah is a phenomenal woman and photographer!!! Her winning personality makes taking pictures a breeze. She's quick enough to get that perfect shot of your busy toddler but doesn't rush the session. She makes you feel like you've been friends forever.

A family photoshoot is bigger than just taking pictures. It's about giggly faces, and chasing butterflies, and that face you make when you can feel baby kicking inside your belly. It's about making memories with your favorite people.
